CHOLULA AND BAROQUE

The archaeological zone of Cholula, site of the largest pyramid in Mesoamerica, with nearly a million cubic meters, is the most important explored prehispanic settlement until now in the state of Puebla, and one of the principal explored sites along with the altar square.

The Baroque museum represents the multicultural sensibility that linked Mexico and especially Puebla with the most advanced expressions of plastic arts, music, literature and science, on an universal expansion period of trading and political structures.
